“ Dear Diana and Michelle;
Losing a child is such a terrible thing but to lose a child before you get the chance to meet her, we can only imagine, must be incredibly painful. Richard and I are so very sorry that the two of you are going through this and we'd give anything to take some of your pain. To us, Georgia Mae was such an expression of love between the two of you and that brought us such joy to see you both so happy. Georgia Mae was also hope for the future, a future of laughing, loving, growing and learning. We are praying for peace and sending healing energy. We love you all beyond words and we wish that we had some explanation, a reason, or just words that could comfort you and take away your pain. We sincerely thank you for sharing her moments with you two with us. We are truly honored and grateful to have had that with her. We will honor her every year, until we meet her in Heaven, with a candle and a rose and always remember her brief but precious time with us. Again, we are so, so sorry for your loss.
All our love,
Mom and Richard. ❤️🙏🏻👶🏻
