“ About two years after adopting one perfect dog, Dexter, from Susan, she called me, telling me she had a dog and immediately thought of me. I says to myself "Rut row." "Why me Susan?" I warily asked. "Um.... because you're a therapist and will be patient and understand him." Double rut row. She had it all backwards; she was the patient one. As I struggled to help this lil guy with his OCD and house breaking, she never faltered in encouraging me, offering ideas and support, wanting to make this adoption work for both Ruddee and me. Although I did not keep track of the numerous phone calls we exchanged over 278 texts. 278! And not once was she short, irritated or fed up with me. God I love this woman and will miss her so.

“ I have such great memories of you. I have been crying for two days. Surely, these tears will stop some day. My husband & I volunteered with golden retriever rescue for about 5 years. I fell in love with a huge red male golden that I named, Bench. (After Johnney Bench). We were kicked out of my vet's office on the 1st trip. Bench had a naughty-side. Bench would stand over me in bed and growl when my husband would come to bed....the husband was not happy :) The conversations at home went something like is; husband: you must give that dog back to rescue. wife: I'm keeping my dog. God, our NEW vet, Dr. Jill Sackash, and Beth Hough, sent us to Susan Sharpe. Bench & I got through Dog I & II, Bench got his CDC & he became a therapy dog working with conduct disorder teenagers....yes, Bench was a conduct disorder child. I would not have been able to keep my beloved Bench if it had not been for the magic of Susan. And Lynda Jones is correct, she was a Drill Sargent. She had more patience for the dogs than the humans.....but that was what made her so perfect.

“ I was a senior in High School and Sue and I had many chats on the bus. The best part was how attentive she was and loving "Senior week" sue and another girl gave me a graduation card. She and Connie were the only 2 not my family that celebrated my graduation. I loved her a lot, her compassion for animal or human being was fantastic. Gone but never forgotten. <3

“ I met Susan (Gunny) about 9 years ago. I took my 6 month old pitbull to her to start training. I remember the very first night of class, my mom went with me. All of the students were sitting in a circle with their dogs, and Susan began to talk. A few people in the circle were chattering among themselves. Susan stopped in mid sentence and politely but sternly stated, "it is going to be awfully difficult to hear what I am saying if you are talking." I gave my mom an elbow in the ribs and whispered to her, "this is going to be fun." From that day on I nicknamed her Gunny, as in Gunnery Sergeant. The nickname stuck all these years. As my dog and I learned I also became friends with Gunny. I could tell she really cared about my dog and me as a person. I learned a tremendous amount from her and even got to help teach a little. Be at peace Gunny, my friend.

“ I was one of the “rugrats” who grew up at Oak Lanes during Ron & Sue’s time there until they moved on, when my own son was about 5. I remember just hanging out there on any given day sitting on a barstool at the counter chatting with them both. I’m sure they probably got tired of me rattling on about high school boyfriends or fights with friends, nail polish, hair dos or whatever I might have been rambling on about back then but she never made me feel that way. So many great memories with them, they helped me through so much in some pretty dark times, always making me feel important.

*I remember so clearly how much Sue would glow when talking about Justin and “Gracie” (Sheena) when they came into her life. She was an amazing person and long time family friend and will be missed by so many. Ron and family, my prayers are with you!*

“ *I met Sus when her and Ron first bought Oak Lanes. I remember so many late Saturday nights after closing we would all load up into 2 vehicles and head to Ft. Wayne to a Mexican restaurant for a late night dinner. She was a remarkable lady. Later on in life along came Justin and Sheena (Gracie) who I often took to the zoo along with Laura and Bobbi. We had a lot of good times. She always got a kick out of the puppies I would find to adopt. They were the silliest and most unusual looking puppies. She always would look at them and chuckle and then of course just melt. We will miss you so much Sus!*

“ *Susan was my best friend from grade school up and we had a lot of great memories together! One funny memory that stands out in my mind is the time we were moving a mattress for someone. Bringing it from Huntington on the Bracken road, and we both smoked at the time. One of us flipped out a cigarette butt and a few miles down the road, we looked in the rear view mirror, only to see smoke coming from the bed of the pick-up truck! The mattress was on fire! We quickly unloaded it and "stomped" the fire out, but the mattress was ruined. She was the BEST dog trainer ever, and will be missed by so many.*

“ Susan was a very special , kind friend to all that met her including any and all four legged friends.Even when seriously ill she reached out to us in Florida to help with training tips even though she had taught us so much when we lived in Fort Wayne.Our 2 Berners, Zoey and Ivan became well mannered great Therapy dogs due to Susan's perseverance with boisterous Ivan especially.I never believed that Ivan could turn a lightswitch on or open a drawer but Susan did and she was always right!!! Because of Susan they became devoted to their Therapy work and gave back to communities as that is what Susan hoped for. We will forever remember the good times we shared and hope that all those beloved dogs were waiting for her at The Rainbow Bridge and that peace comes to her family who will miss her tremendously but know that she is no longer suffering. Prayers and four paws crossed from Christine Macdonald and Suzy and Jagger Berners continuing on in Therapy work.

“ My sincere condolences to Ron, Don, Wanda, Sheena, Josh, June and Susan’s entire family . . .

*You are each in my heart and in my prayers!*

*Susan is a wonderful person! Let it be said that she watched out over all of God’s creatures (including us humans) with an over abundant supply of patience, love and nurturing.*

*Life was cut too short for Susan as she had more ideas and projects in the making. It makes me sad that something as terrible as cancer had to take her away from us so soon! But I know that she is now in a better place where pain and suffering are not included.*

*From her never ending love of dogs through Little Bird who spent the entire fall and winter with us one year as well as an entourage of more creatures.*

*Little Bird - What can I say - Ron’s Little Bird - We all assisted to feed him and water him with syringes and more and grew him from the little baby bird he was to full grown. Even though him flying around the office and perching on my head scared me to pieces at times! It was grand and I will never forget it and I still look for him each time I come to visit.*

*The Anxiety Wrap and Quiet Dog - How many dogs these products have helped is truly overwhelming and we will never know for certain. We do know that all of the accolades received from customers and trainers alike show Susan had a gift for helping dogs in times of need with these products.*

*The Foster Dog Program - Dog, horses, cats, and more all were ensured that they would find the best possible homes through Susan’s program.*

*Canine Companion by Certified Trainers - Through Doggie Daycare, Doggie Resort, training and more dogs from all over northeast*

*Indiana (and beyond) along with their owners have been assisted with their needs in a positive manner.*

*Oak Lanes - I have told people over the years whom I work for and they all say "Susan from Oak Lanes". They pour out stories and love for Susan and it makes my heart swell.*

*Susan never strayed from her passion for animals and to assist them in the best and most positive manner.*

*As a boss Susan was the same as she was with animals . . . Patient, loving, nurturing and more.*

*If there is pizza in heaven (and I hope there is) please make sure Susan's has extra garlic butter on the crust. And, if possible, please order Susan some Chipotle as a treat to enter her into her life with you.*

*I better be done now or Susan is going to let me know "It's time to get back to work now". How I miss that simple sentence more and more!*

*We love you Susan and we will always miss you! We will remember you every time we help someone or one of God's creatures as a continuing legacy to you! The world was a better place because you were in it!*
