“ My father was a great man and so passionate about everything in his life, his hobbies and his family were equally loved by him. Growing up with such an awesome father I feel I was blessed with more adventures and precious memories than most children. He guided me on building model trains and we ran live steam, full sized and scale model, trains and there was a lot of travel involved. He taught me so many things and always had something kind to say and we shared many laughs. My father knew no strangers and helped anyone he came across. He will be missed and I am so thankful that my children had the chance to bond with him and know the same love I grew up with.

“ Always enjoyed the miniature train outings at his house twice a year. Very nice gentleman. Hopefully somehow you will be able to keep the property and the tracks. You have my deepest sympathy. He will be truly missed.

“ Some of my favorite memories of my dad are all the times we would go to different places for train meets. I had so many great experiences as a kid because my dad had the love of trains.
